

RX for Congress

Insure more children.
Raise cigarette taxes.

A Winning Prescription

Congress is debating the reauthorization of SCHIP, the highly successful State Children's Health Insurance Program. By increasing the tax on cigarettes, we can expand SCHIP so that millions

more uninsured children in our country get the quality care they deserve. And, raising the taxes on cigarettes means fewer kids will start smoking. To learn more go to www.CoverKidsNow.org.

Tell Congress to fund healthcare for more kids by raising the tax on cigarettes.
